## Zally's towing solutions

Cargo, bins, cages and nursery loads - matched to your application.

PEDESTRIAN TOW TUG

RIDE-ON TOW TUG

PEDESTRIAN TOW TUG

## The tug and trailer, working together.

Combine a Zally's tow tug with a transport device selected around your load and operating environment. Share your load weight, dimensions, travel route, gradients, floor surface and turning space so we can assess a suitable combination.

**TELL US WHAT YOU NEED TO MOVE**

**We will provide the total solution - the tow device and the transport devices.**

### Trailer and hitch selection

Tow tug model, hitch compatibility, gross trailer weight, braking and operating conditions must be assessed together. Suitability is confirmed individually; options shown are model dependent.

**Note:** This brochure includes real builds as well as concept renders offered to clients over our 50 years in business.

Original WQST references are retained for cross-reference with Version 1. WQST7-WQST9 passenger configurations are omitted from this edition.

## Cargo & bin transport

**WQST1**

### Towable trailer train

Multiple trailers connected to a tow vehicle.

**WQST2**

### Enclosed-side cargo trailers

Linked trailers with raised side panels.
